

# VILAVIPOLŽE

Vila Vipolže, the most beautiful Renaissance villa in Slovenia, located in the most western part of Slovenia (on a border with Italy), is today the perfect venue for your promotion, strengthening ties with partners or meetings. Nested in the Brda wine region, with its refined environment surrounded by vineyards, it has also become a popular wedding location. For almost a thousand years, it hosted count and noble families who came to the hills for new energy and inspiration, and now we invite you to take their place!

We offer a congress and event space that can be divided into three halls or connected into one, which offers as many as 220 seats. We enrich the events with charm and homeliness, and a superb banquet with dishes by the Michelin star Slovenian chef Tomaž Kavčič. To make your experience complete, you can end it with an overnight stay in Villa Vipolže which offers 3 Junior Suites and 3 Superior double rooms.

Villa is nested in the most known Slovenian wine region, that's why incentives such as wine experiences at wineries that are on a list of 100 Best in the world are a must. But there are also experiences such as jeep wine safari, cooking workshop, cycling, picnic in a vineyard, lavender harvest, apitherapy, etc. that will impress your partners.

# Piano Nobile hall

The Piano Nobile Hall is a multipurpose hall where various business and cultural events take place. The hall, which measures 200 m<sup>2</sup>, can accommodate over 200 people and allows many different layouts. The possibility of dividing the room into three parts is also an excellent solution for smaller groups. The hall also has a projector and screen, as well as technical equipment for sound and interpretation.

## Theatre layout

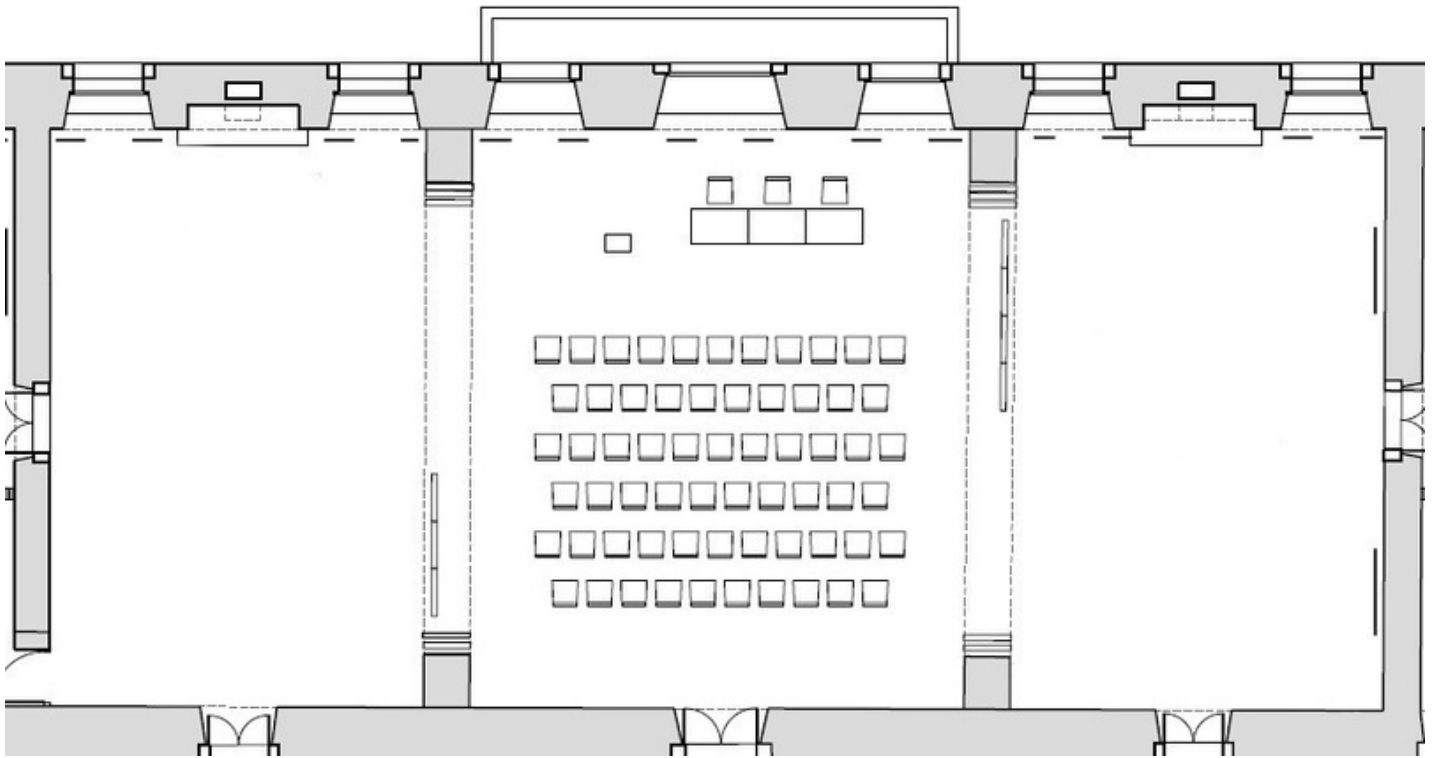

The theatre layout is suitable for various events such as presentations, panels or lectures. It is also the most rewarding setup with a larger number of participants. In the case of a smaller number of participants, we can divide the space, where we can use only one part of the hall, if we want a more intimate space.

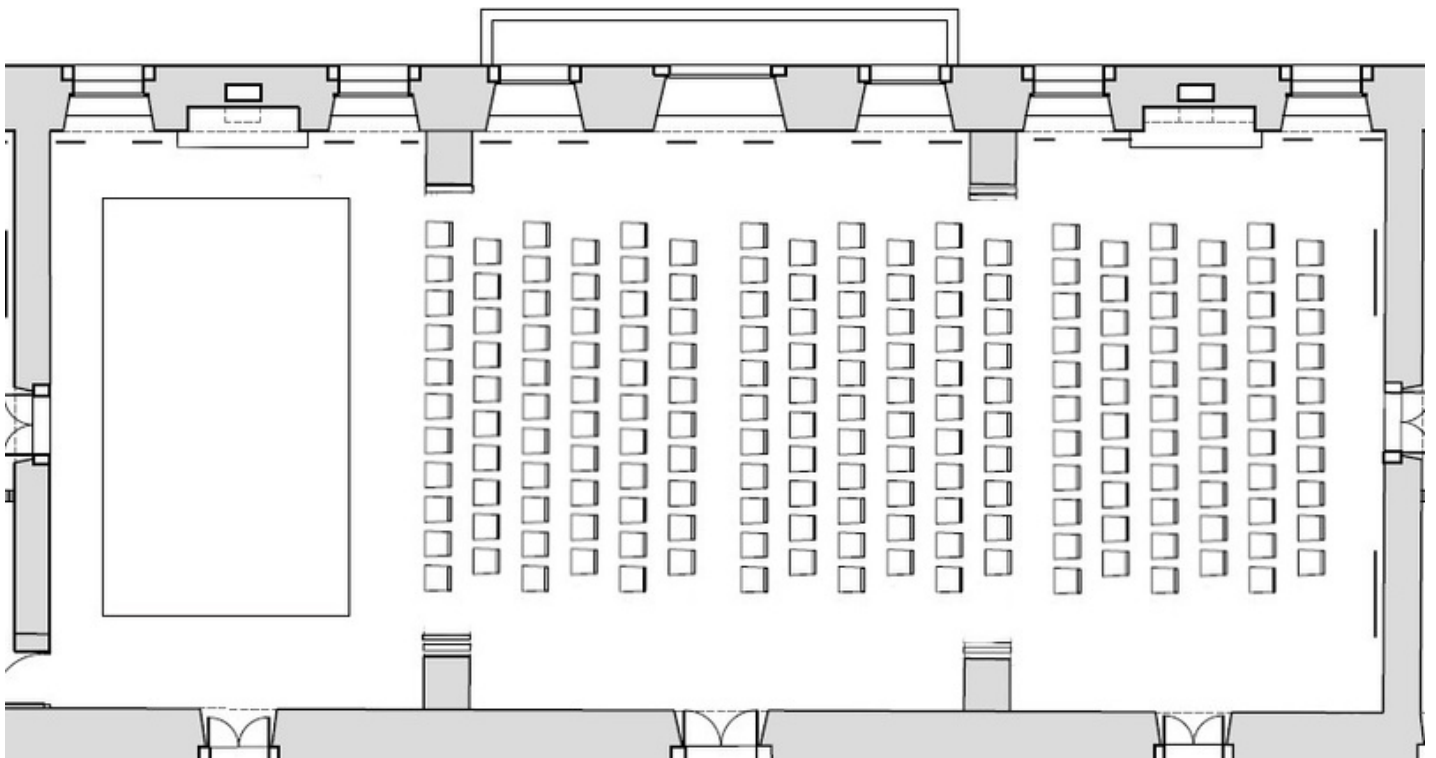

Theatre is the most common layout.

# VILAVIPOLŽE

For smaller groups, the hall can be partitioned into a smaller room.

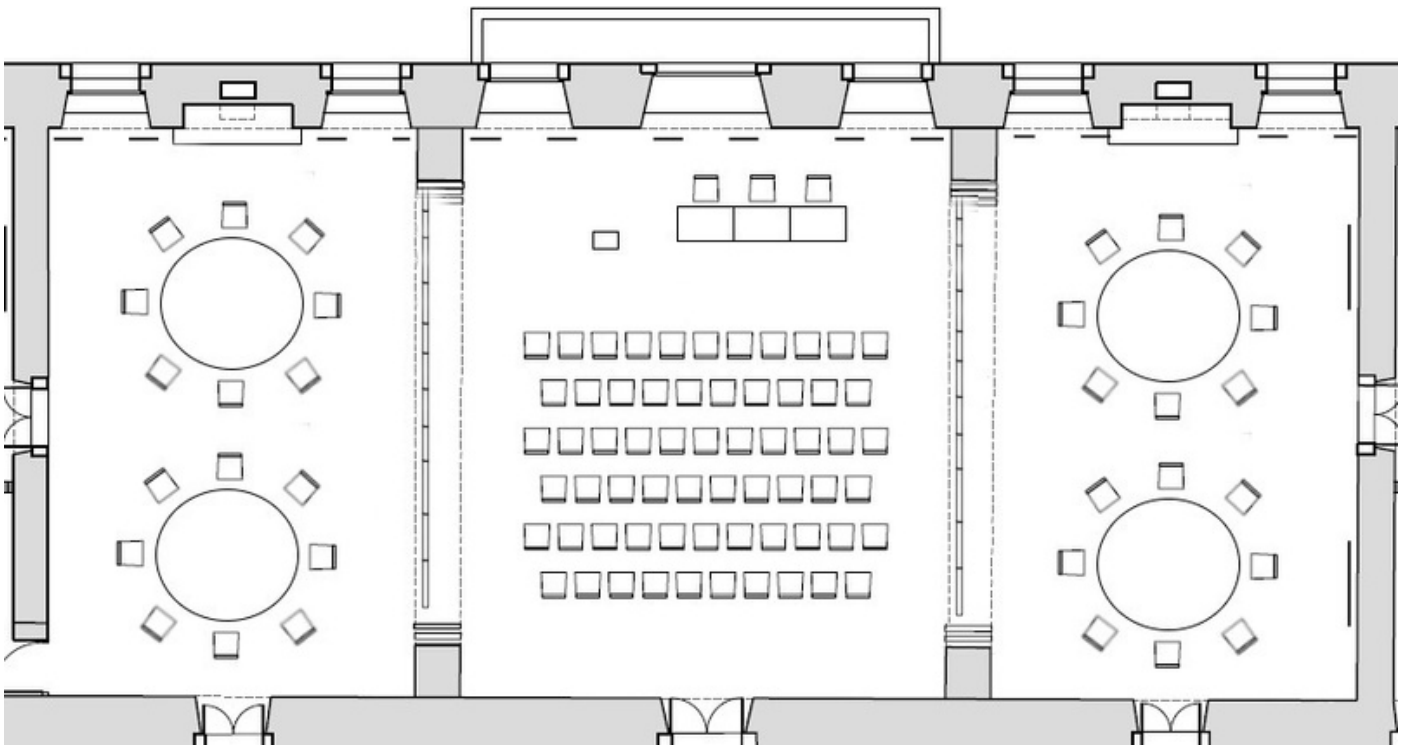

With a larger number of participants (over 200 people), a theatre setup along the length of the hall is more suitable.

VILAVIPOLŽE

## Layout for workshops

In the case of workshops, where the group is usually divided into several smaller groups, we can partition the space according to your needs. For example, we can divide it into three parts, where we set up one common space and prepare two for working in groups. This layout is more suitable for small to medium-sized groups of up to approx. 30 persons.

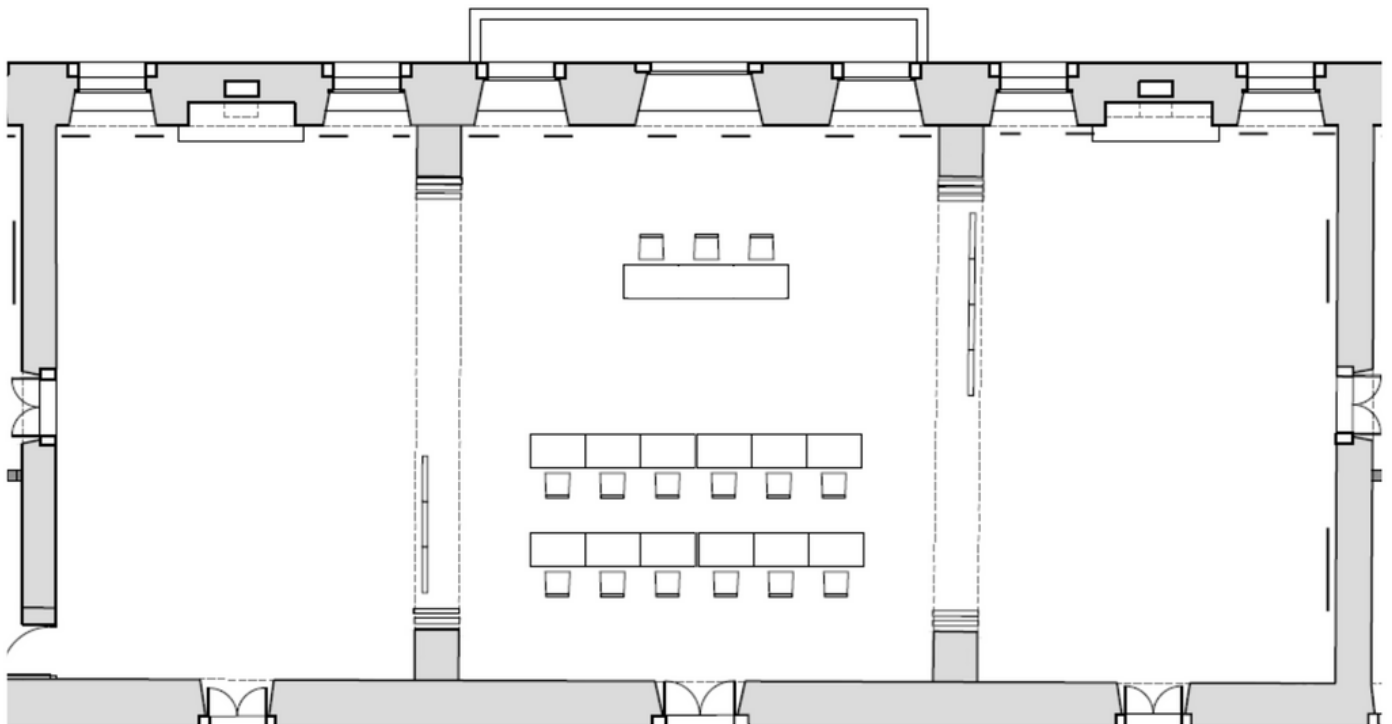

VILAVIPOLŽE

## Classroom layout

if your participants need a work surface, we can also set up seats with tables. This layout is more suitable for smaller groups.
